

As a resident of Western North Carolina, and one who regularly watches WLOSTV from Asheville, I urge you to use your influence, as an advertiser, to prevent the gross misuse of their license, by Sinclair Broadcasting, in presenting an illegal, partisan TV special. Our democracy is being tested in many ways right now, and the laws governing the freedom of the press are especially threatened. The air-ways are free, and any organization with a license to use them, must be held accountable and required to adhere to the strict rules governing their use.

The advertisers on these airways also have a responsibility to viewers, and will be held accountable by their customers.
